

INITIAL COIN OFFERINGS: CAN SECURITIES REGULATORS BALANCE MARKET GROWTH AND INVESTOR PROTECTION?

Live Webcast

Wednesday, October 17, 2018

1:00 p.m. — 2:00 p.m. EDT

Despite the rapid rise of cryptocurrency exchange as a means for individuals and enterprises to raise capital, legal and regulatory clarity at the federal and state levels are sorely lacking. Such uncertainty has inspired questionable behavior in the ICO market and encouraged the creation of standards through investigation and enforcement. Our speakers will discuss actions taken by the SEC and state FinTech regulators and how those agencies can most effectively police fraud and encourage growth through transparent and predictable rules.
