## **Setting the Scene: Timeline of Key Events**

#### Dec. 17, <u>2021</u>

SEC announces record keeping charges against Wall Street bank

#### Sept. 27, 2022

SEC announces record keeping charges against 16 Wall Street firms

## Nov. 2022 – Present

Reports of SEC sweep examinations

Sept. 15, <u>2022</u>

DOJ Monaco Memo

#### **March 2023**

DOJ Corporate Compliance Evaluation Memo Update

## Relevant Agency Rules

## Relevant Agency Rules: The Exchange Act

# Securities and Exchange Act of 1934

#### § 17 & Rule 17a-4

 Among other things, Rule 17a-4 requires broker-dealers to preserve for a period of three years "originals of all communications received and copies of all communications sent... relating to its business as such."

# Relevant Agency Rules: The Investment Advisers Act

#### The Investment Advisers Act of 1940

### § 204 & Rule 204-2

 Rule 204-2 obligates registered investment adviser to "make and keep true, accurate and current ... books and records relating to its advisory business."

In its recent orders, the SEC noted the rule requires, in relevant part, investment advisers to:

"preserve in an easily accessible place originals of all communications received and copies of all written communications sent relating to, among other things, any recommendation made or proposed to be made and any advice given or proposed to be given."

# Relevant Agency Rules: Other Considerations

# Failure to Supervise Employees

- Regulated entities must also be aware of the requirement to supervise their employees to prevent or detect violations of applicable laws and regulations
- Failure to do so can result in additional violations, including:
  - § 15(b)(4)(E) of the Exchange Act;
  - § 203(e)(6) of the Advisers Act

## Communication at Issue

# Communication at Issue: Relevant Communication

- Regulators are focused on ensuring all <u>business-related</u> communication is preserved.
- This includes communication between:
  - Colleagues;
  - Clients;
  - Broker-dealers customers; and
  - Other persons connected to the securities, commodities, or swaps – related businesses.
- Mediums at issue include:
  - Text messages;
  - WhatsApp;
  - Signal; and
  - Personal email.

#### UNITED STATES OF AMERICA Before the SECURITIES AND EXCHANGE COMMISSION

SECURITIES EXCHANGE ACT OF 1934 Release No. 95925 / September 27, 2022

ADMINISTRATIVE PROCEEDING File No. 3-21170

In the Matter of

Nomura Securities International, Inc.

Respondent.

ORDER INSTITUTING ADMINISTRATIVE AND CEASE-AND-DESIST PROCEEDINGS, PURSUANT TO SECTIONS 15(b) AND 21C OF THE SECURITIES EXCHANGE ACT OF 1934, MAKING FINDINGS, AND IMPOSING REMEDIAL SANCTIONS AND A CEASE-AND-DESIST ORDER

8

I.

The Securities and Exchange Commission ("Commission") deems it appropriate and in the public interest that public administrative and cease-and-desist proceedings be, and hereby are, instituted pursuant to Sections 15(b) and 21C of the Securities Exchange Act of 1934 ("Exchange Act") against Nomura Securities International, Inc. ("Respondent" or "NSI").

#### NSI's Recordkeeping Failures Across Its Brokerage Business

17. In September 2021, Commission staff commenced a risk-based initiative to investigate whether broker-dealers were properly retaining business-related messages sent and received on personal devices. NSI cooperated with the investigation by gathering communications from the personal devices of a broad array of senior and other broker-dealer personnel. These personnel included senior leadership, investment bankers, and debt and equity traders.

# Communication at Issue: "Business-Related"

- SEC has not specifically defined "business-related."
- SEC has applied the term to communication involving the following:
  - Investment strategies;
  - Client meetings; and
  - Market, analysis, activity trends, or events.
- However, content of communication will likely be the determining factor
  - In an adopting release of Rule 17a-4 (Feb. 1997), SEC noted that "the content of the electronic communication is determinative[.]"

```
SECURITIES AND EXCHANGE COMMISSION

17 CFR Part 240

[Release No. 34-38245; File No. S7-21-93]

It's wild! Think it'll keep going up?

## Communication at Issue: Examples (cont.)

Hey, doing a block of ABC.

Lmk if you want details

Interesting....I'll call you.

# Communication at Issue: Examples of Relevant Communication

## SEC Order: Sept. 27, 2022.

- Investment banker received text messages concerning "investment strategy; discussions of investment banking client meetings; and communications about market color, analysis, activity trends or events in the technology industry."
- Managing director exchanged offchannel business related communication with colleagues, clients, and industry participants

# Enforcement Actions & Exams

# **Enforcement Actions & Exams: December 2021 Efforts**

#### December 2021: SEC and CFTC Enforcement Actions

- SEC and CFTC resolved charges against a major Wall Street firm resulting in a combined penalty of US \$200 million.
- The firm was charged with "widespread and longstanding failures by the firm and its employees to maintain and preserve" businessrelated communication.
- Platforms at issue included:
  - Text messages;
  - WhatsApp; and
  - Personal email.

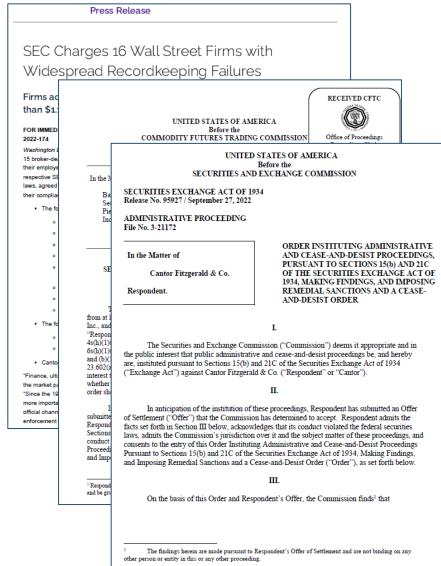

"As technology changes, it's even more important that registrants ensure that their communications are appropriately recorded and are not conducted outside of official channels in order to avoid market oversight[.]"

SEC Chair Gary Gensler

# Enforcement Actions & Exams: September 2022 Efforts

 SEC and CFTC announced a group of settled enforcement actions

- Charges against 15 high-profile brokerdealers and 1 investment adviser.
- Centered on failures to monitor and retain business-related communication conducted over "off-channel" mediums.
- Penalties:
  - Collectively \$1.1 billion in monetary penalties;
  - Hiring an independent consultant to review and report (to the SEC) on policies, procedures, training;
  - Adopt independent consultant's recommendations (unless unduly burdensome); and
  - Consultant reviews preservation programs one year after submitting its initial report to the SEC.

# **Enforcement Actions & Exams: September 2022 Efforts**

## September 2022: Takeaways

"These actions deliver a straightforward message to registrants: You are expected to abide by the Commission's recordkeeping rules[.]"

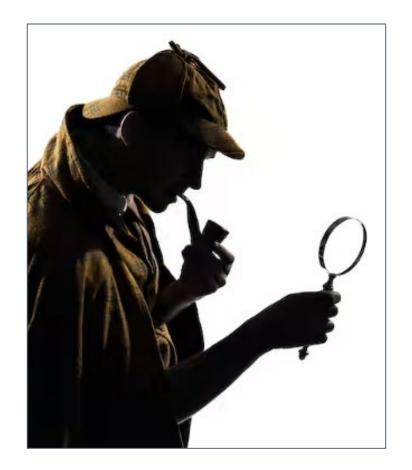

Sanjay Wadhwa

In 2021 and 2022 Orders, SEC focused on the following facts:

- <u>Record Keeping Failures</u>: Widespread and pervasive use of unrecorded business-related communication conducted through off-channel mediums.
  - Use of text messages, WhatsApp, Signal, and personal email.
- <u>Policy Failures:</u> Existence of record retention policies and procedures that were not followed or enforced; and
  - Management and supervisors tasked with enforcing policies and procedures related to record retention and off-channel communication also violated such polices and procedures.

# **Enforcement Actions & Exams: Additional Inquiries**

- November 2022:
  - Three large private equity firms disclosed in quarterly filings they were responding to SEC inquiries into their businessrelated messaging.
- February 2023:
  - Two hedge funds disclosed the SEC had asked to review mobile phones for potential offchannel communication.
  - A French bank announced the SEC requested information related to compliance with recordkeeping requirements in connection with businessrelated communications on unapproved messaging platforms

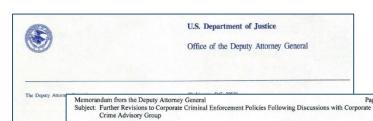

# Department of Justice Guidance

## **DOJ Guidance: Prior Guidance**

#### **Assessing Corporate Compliance Programs**

- September 2022: Monaco Memo
  - Management of third-party
    messaging platforms impacts
    cooperation assessment,
    including information retention and
    availability;
  - Prosecutors urged to consider how use of third-party messaging platforms are policed; and
  - Corporations expected to have policies and training related to third-party messaging platforms.
- November 2022: DOJ Comments
  - Emphasize importance of employee training;
  - Third-party messaging platforms are risky; and
  - Adopt a risk-based approach.

Use of Personal Devices and Third-Party Applications

The ubiquity of personal smartphones, tablets, laptops, and other devices poses significant corporate compliance risks, particularly as to the ability of companies to monitor the use of such devices for misconduct and to recover relevant data from them during a subsequent investigation. The rise in use of third-party messaging platforms, including the use of ephemeral and encrypted messaging applications, poses a similar challenge.

Many companies require all work to be conducted on corporate devices; others permit the use of personal devices but limit their use for business purposes to authorized applications and platforms that preserve data and communications for compliance review. How companies address the use of personal devices and third-party messaging platforms can impact a prosecutor's evaluation of the effectiveness of a corporation's compliance program, as well as the assessment of a corporation's cooperation during a criminal investigation.

As part of evaluating a corporation's policies and mechanisms for identifying, reporting, investigating, and remediating potential violations of law, prosecutors should consider whether the corporation has implemented effective policies and procedures governing the use of personal devices and third-party messaging platforms to ensure that business-related electronic data and communications are preserved. To assist prosecutors in this evaluation, I have asked the Criminal Division to further study best corporate practices regarding use of personal devices and third-party messaging platforms and incorporate the product of that effort into the next edition of its Evaluation of Corporate Compliance Programs, so that the Department can address these issues thoughtfully and consistently.

As a general rule, all corporations with robust compliance programs should have effective policies governing the use of personal devices and third-party messaging platforms for corporate communications, should provide clear training to employees about such policies, and should enforce such policies when violations are identified. Prosecutors should also consider whether a corporation seeking cooperation credit in connection with an investigation has instituted policies on ensure that it will be able to collect and provide to the government all non-privileged responsive documents relevant to the investigation, including work-related communications (e.g., texts, e-messages, or chats), and data contained on phones, tablets, or other devices that are used by its employees for business purposes.

#### m III. Independent Compliance Monitorships 11

As set forth in the October 2021 Memorandum, Department prosecutors will not apply any general presumption against requiring an independent compliance monitor ("monitor") as part of a corporate criminal resolution, nor will they apply any presumption in favor of imposing one.

<sup>32</sup> In September 2021, the Associate Attorney General issued a memorandum concerning the use of monitorships in civil settlements involving state and local governmental entities. Memorandum from Associate Attorney General Vanita Gupta, "Review of the Use of Monitors in Civil Settlement Agreements and Consent Decrees Involving State and Local Government Entities," Sept. 13, 2021. That memorandum continues to govern the use of monitors in those cases.

#### U.S. Department of Justice Criminal Division

Evaluation of Corporate Compliance Programs

(Updated March 2023)

#### Introduction

The "Principles of Federal Prosecution of Business Organizations" in the Justice Manual describe specific factors that prosecutors should consider in conducting an investigation of a corporation, determining whether to bring charges, and negotiating plea or other agreements. Justice 19-28.300. These factors include "the adequacy and effectiveness of the corporation's compliance and the time of the offense as well as at the time of a charging decision" and the

- □ Communication Channels What electronic communication channels do the company and its employees use, or allow to be used, to conduct business? How does that practice vary by jurisdiction and business function, and why? What mechanisms has the company put in place to manage and preserve information contained within each of the electronic communication channels? What preservation or deletion settings are available to each employee under each communication channel, and what do the company's policies require with respect to each? What is the rationale for the company's approach to determining which communication channels and settings are permitted?
- □ Policy Environment What policies and procedures are in place to ensure that communications and other data is preserved from devices that are replaced? What are the relevant code of conduct, privacy, security, and employment laws or policies that govern the organization's ability to ensure security or monitor/access business-related communications? If the company has a "bring your own device" (BYOD) program, what are its policies governing preservation of and access to corporate data and communications stored on personal devices—including data contained within messaging platforms—and what is the rationale behind those policies? How have the company's data retention and business conduct policies been applied and enforced with respect to personal devices and messaging applications? Do the organization's policies permit the company to review business communications on BYOD and/or messaging applications? What exceptions or limitations to these policies have been permitted by

questions" a prosecutor should ask:

- Is the corporation's compliance program well designed?
- Is the program being applied earnestly and in good faith? In other words, is the program adequately resourced and empowered to function effectively?

Speech

"This Law and Its Effective Administration": Remarks Before the Practising Law Institute's 54th Annual Institute on Securities Regulation Press Release

SEC Announces Enforcement Results for FY22

Commission filed 760 enforcement actions and recovered record \$6.4 billion in penalties and disgorgement on behalf of investing public

Chair Gary Gensler

Washington D.C.

Nov. 2, 2022

My thanks to the Practising Law Institute and the  $54^{th}$  Annual Institute on Securiti like to note that my views are my own, and I am not speaking on behalf of my fel

On May 27, 1933, when he signed the first of the federal securities laws, Preside
"This law and its effective administration are steps in a program to restore some
rectitude."[1]

For nearly 90 years since, Congress has tasked the Securities and Exchange Commission and our dedicated staff with this "effective administration."

We do this through overseeing markets, registering entities, enacting rules, examining against the rules, and enforcing those rules.

Today, I am going to focus on that final pillar: enforcement.

Penalties, Undertakings, and Admissions

To deter future misconduct and enhance public accountability, the SEC in a number of actions recalibrated penalties for certain violations, included prophylactic remedies, and required admissions where appropriate. For example, the \$1.235 billion in cumulative penalties paid in connection with the recordkeeping violations made clear that the fines were not just a cost of doing business. The undertakings in those cases included retention of compliance consultants to, among other things, conduct comprehensive reviews of the firms' policies and procedures relating to the retention of electronic communications found on personal devices. In addition, the firms admitted their conduct and acknowledged that their conduct violated recordkeeping provisions of the federal securities laws.

"I continue to be impressed with our Division of Enforcement. These numbers, though, tell only part of the story," said SEC Chair Gary Gensler. "Enforcement results change from year to year. What stays the same is the staff's commitment to follow the facts wherever they lead."

"As reflected in these results, the Enforcement Division is working with a sense of urgency to protect investors, hold wrongdoers accountable and deter future misconduct in our financial markets," said Gurbir S. Grewal, Director of the Division of Enforcement. "A centerpiece of those efforts is ensuring that we are using every tool in

es for similar

1 billion. [12] We

re misconduct, and our

last year's actions amply demonstrates Enforcement staff's skill in uncovering feploying the right investigative tools and case strategy, and, above all, its ers and obtaining remedies that promote market integrity while helping to protect Deputy Director of the Division of Enforcement. "From investigative attorneys and entists, investigators, and support staff, each member of Enforcement contributed ision in the past fiscal year, and it is a great privilege to serve alongside them in

We then did a sweep for similar violations. In October, we charged 16 additional financial entities for similar recordkeeping failures, all of whom admitted their misconduct, in a combined settlement of \$1.1 billion.[12] We ordered undertakings against the 16 firms designed to remediate past failures and prevent future misconduct, and our investigation is ongoing.

I hope this sends a message to other registrants. Books and records matter. We will strive to ensure that penalties are not seen as the cost of doing business. We will use sweeps, initiatives, and undertakings to shape market behavior.

Second, high-impact cases aren't just the ones that have a high profile or high penalties. They also can be cases where we reward good behavior.

## **How to Prepare: Practices and Procedures**

- Institute and/or evaluate current and prior policies pertaining to electronic records preservation and the use of communication channels.
  - Policies should clearly state violations can result in disciplinary action.
- Conduct routine trainings on the firm's policies and procedures regarding electronic communication and off-channel mediums.

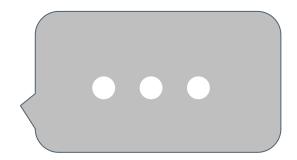

## **How to Prepare: Practices and Procedures**

- Institute technological
   measures that preserve and
   flag off-channel
   communication, or prohibit the
   download or use of certain
   applications where message
   retention is not possible.
- Issue company-owned phones or company-managed phones.
- Conduct periodic audits of electronic communication storage and use of messaging applications.
